Comparison of Present Soviet Civil Defense Program and Postulated US Alternatives
(Cont.)

Program		Description	Shelter	Warning	Trainings
Posture Number	Goal (Annual Expenditures in Million Dollars)				
5	Significant protection for all people (600-1,800)	A Shelters for all; blast in cities; fall-out elsewhere	Type (Million Spaces) Slanted fall-out (460)	Number of Alternative Systems 7	Million Trainees Per Year 7
		B Evacuation of cities; rural fall-out shelters	Slanted fall-out (460)	6	5
		C Evacuation; blast for remaining individuals	Slanted fall-out; slanted blast (480)	3	7

*A precise valuation in dollar terms of the Soviet program is not possible but it is believed the value probably would fall within the range presented for US Posture 4.
 **The present configuration and number of Soviet warning systems is not known; from all available evidence, the systems postulated in all of the US postures are significantly superior.

***The number of US trainees was extrapolated from the data provided by the source document.
